No

If you answered no, skip to question 20.

19a. Job placement rates for students completing certificate programs and CTE (career-technical education) degrees for last three years available data:

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-23 job placement rate will be the number of students who completed the program in 2021-22.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2021-22, you do not need to report a job placement rate for 2022-23. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition – but please describe your definition and methodology in Question 19.

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved.

There are several variables that strengthened EVC students to achieve successful metrics. This includes the guided pathway projects, credit for prior learning, AB 1705, AB 928. The addition of wrap-around service of tutors, basic needs, special programs, financial aid, and an increase in counselor access.

22. What professional development can the Commission coordinate to support your Institution in achieving its student success goals within the next three-year cycle?

Over the next three-year cycle, the ACCJC can significantly support our college's student success goals by coordinating strategic professional development. This development should prioritize helping colleges effectively use accreditation standards as tools for SLO/SAO improvement, a student-focused framework with equitable success.
